The man remains in this position while she moves the pelvis up and down.

### **2. Kamasutra: Nirvana**

She is lying on her back, with her legs stretched out and her arms over her head. He stands on top. This intensifies the effect of the penetration and a natural stimulation of the crust is achieved.

### **3. Kamasutra: Ascension to lust**

He is standing with his feet firmly anchored on the ground. She stands in front of him but with her back to him and lets herself get up. She surrounds him with her legs and rests with her feet on the bed or the sofa. Now he can play with her position, lifting or lowering her. The movement should be up and down, fast and at the same time deep.

### **4. Kamasutra: It fits**

### **5. Kamasutra: The lotus**

The woman lies on her back and bends her legs crossed, while the man lies between her legs and penetrates her from above. So that the woman does not have to support the weight of her partner, it is recommended that he lean on his arms. This fun can be even funnier if you put a cushion under your butt to modify the angle of penetration. Another advantage of this position is that she has her hands free to stimulate her erogenous zones or those of her partner.

## **6. Kamasutra: Against the wall**

The man holds the woman in his arms holding her by the buttocks. She surrounds the man with his legs at hip height, and to help hold his weight he places his feet against the wall. This position requires a bit of force on the part of man, but the result is worth it. In addition, there is the excitement of doing it in a different place.

## **7. Kamasutra: Riding backwards**

The man lying on his back, the woman, sitting hanging on him, with his back and knees resting on the floor, moves back and forth. She can at the same time caress the sex of her partner or her clitoris.

Then she is completely stretched over him and begins to move back and forth, marking the speed that he likes the most. It is an ideal posture for a full body contact, and enjoy kisses and caresses. It is also a recommended position for very well-gifted children, so that they do not hurt their partners, since the penetration is not very deep.
